Making a Vacation Exchange

- Search for your next great adventure. If what you are looking for is available, Interval will make sure you have enough points to make the exchange, and then you'll receive a confirmation.
- If it's not available, no problem. You'll keep your points until a confirmation is issued, which is very likely: 97 percent of exchange requests placed by Interval members result in a confirmation.*

Helpful Tips

- To improve your chances of confirming a vacation, request as many resorts and dates as you are willing to accept. You must request a minimum of:
 - Three different resorts and one time period
 - One resort and three time periods or
 - Two resorts and two time periods
- To enhance your trading power, place your exchange request as early as possible — two years in advance of your desired travel date is recommended.
- You can also borrow points from future years or bank points from the current year for future years. Contact Club Intrawest Member Services to find out more.

The confirmation rate on all exchange requests was 97.1 percent.
